

## Project

University of British Columbia:  
H.R. MacMillan Building - 2001  
Geography Building - 2005

## Products

Omnia Contrat Beam - Riser Mounted

## Total seats

900

## Year of completion

2005

The University of British Columbia is a global center for research and teaching, consistently ranked among the 40 best universities in the world.

The university required comfortable, easy to clean seating with a large Anti-Panic tablet. The Omnia Contract Beam was the perfect fit. Its double contoured back and seat allow for exceptional comfort. The wood veneer is easy to clean, and in riser mounted installation, allows for facility management to easily clean under the seats. Borgo developed a custom tablet size for them, which has now become a standard product.
