

Excellence in fixed seating and more

**MONCTON**

In 1984 Borgo was founded with the vision for reliable, forward-thinking furniture that is well designed and well built. We are a wholly Canadian owned company manufacturing in Toronto, Ontario.

Over the years, Borgo has become known for the quality of its products, and it's commitment to service, which is reflected in the number of repeat clients. The consistently well-manufactured product that we produce and our service record, have awarded us ISO 9001: 2008 registration.

Many of Borgo's Products have been tested and approved by both the Canadian and U.S. federal governments. Our "Supply Arrangement" and GSA business is a source of great pride.

Our future growth is based in the strength and experience of our past, but relies on our ability to see, anticipate and respond to the ever-changing requirements of an evolving working and learning environment.

We define excellence in fixed seating as enhancing the customer and user experience in every possible way. This begins with innovations in safety and comfort which lead to helping our customers create a space that strengthens the benefits for users.

Our expertise in fixed seating, in areas such as responsive customizing, Italian design and Canadian ingenuity, lends itself to our many offerings in corporate, hospitality and healthcare.

#### Eco-Friendly

As a company and community neighbour, we are exceedingly proud of the fact that Borgo manufactures products that are among the most sustainable in the industry. As a manufacturer of seating and case goods, each of us at Borgo understands our responsibility to continuously seek new technology, source progressive materials and develop better processes for producing our products and reducing our footprint on the earth. We are making the effort, and our footprint is getting smaller and smaller.

Some of the areas in which we have made notable progress are:

- Awarded August 4, 2009 following an audit by ameriGreen STRATEGIES Certification
- Borgo uses rapidly renewable materials and recycled content in more than 50% of our products.
- Overall, over 95% of the waste produced in our factories is now being recycled. The amount of waste being sent to the local landfill has been reduced by over 70%. And we are continuously working to improve these numbers.
- State of the art, largest textile cutting machine of its kind in North America has reduced our textile waste of up to 30%.

**EASY TO MAINTAIN**

Injection molded polymer full backs are designed to withstand rigorous abuse and are easy to clean.

**NATURAL APPEAL**

Wood stained back and underseat bring natural beauty and elegance.

**SIDE SEAT ID**

Ergonomically design row numbering helps users easily find their seats.

# MONCTON

## SEAT ID

Add seat numbers to easily identify seat placements.

## COMFORTABLE DESIGN

Molded polyurethane seat and back are ergonomically contoured for hours of support and comfort.

## DURABLE ARMREST

Rugged, scratch proof polypropylene armrest, designed to withstand the most demanding environments.

## SCRATCH PROOF TABLET

Tough, large tablet, with pen holder, made of polypropylene is able to stand-up to any combination of challenges and still remain a solid piece.

## MEMORY SEAT

Automatically returning, uses springs for a soft close.

## CUT TO PRECISION

Perfectly designed and engineered legs are cut to precision and welded internally for a clean finish.

## CLEAN FEET

Ultra rugged epoxy powder coated foot is virtually unbreakable and allows for a clean look that hides any fasteners.
