

In 1984 Borgo was founded with the vision for reliable, forward-thinking furniture that is well designed and well built. We are a wholly Canadian owned company manufacturing in Toronto, Ontario.

Over the years, Borgo has become known for the quality of its products, and its commitment to service, which is reflected in the number of repeat clients. The consistently well-manufactured product that we produce and our service record, have awarded us ISO 9001: 2008 registration.

Many of Borgo's Products have been tested and approved by both the Canadian and U.S. federal governments. Our "Supply Arrangement" and GSA business is a source of great pride.

Our future growth is based in the strength and experience of our past, but relies on our ability to see, anticipate and respond to the ever-changing requirements of an evolving working and learning environment.

We define excellence in fixed seating as enhancing the customer and user experience in every possible way. This begins with innovations in safety and comfort which lead to helping our customers create a space that strengthens the benefits for users.

Our expertise in fixed seating, in areas such as responsive customizing, Italian design and Canadian ingenuity, lends itself to our many offerings in corporate, hospitality and healthcare.

#### Eco-Friendly

As a company and community neighbour, we are exceedingly proud of the fact that Borgo manufactures products that are among the most sustainable in the industry. As a manufacturer of seating and case goods, each of us at Borgo understands our responsibility to continuously seek new technology, source progressive materials and develop better processes for producing our products and reducing our footprint on the earth. We are making the effort, and our footprint is getting smaller and smaller.

Some of the areas in which we have made notable progress are:

- Awarded August 4, 2009 following an audit by ameriGreen STRATEGIES Certification
- Borgo uses rapidly renewable materials and recycled content in more than 50% of our products.
- Overall, over 95% of the waste produced in our factories is now being recycled. The amount of waste being sent to the local landfill has been reduced by over 70%. And we are continuously working to improve these numbers.
- State of the art, largest textile cutting machine of its kind in North America has reduced our textile waste of up to 30%.

THESI with Beech Wood, custom stained seating

## INNER BEAUTY

Precision engineering provides innovative functionality and durability

### SECURE WIRE MANAGEMENT

All power and data connections and wiring are concealed beneath a secure integrated channel system.

### CONNECTIVITY SOLUTIONS

Under-table or top-mounted access to integrated modular Power/Data system.

### ABUSE-PROOF FOOT COVERS

Ultra-rugged toughened stamped steel foot covers are virtually unbreakable – and designed for the most demanding environments.

### MULTIFUNCTIONAL DESIGN

Modesty panels doubles as a wire management channel.

### POWER-ENTRY PEDESTAL

Provides convenient access to power and data connections during installation.

### ARC-DESIGN PEDESTAL

A single length of rugged round steel tubing is precision-formed to eliminate sharp corners and the possibility of welding imperfections.

# THESI

DESIGN BY GIOVANNI BACCOLINI

## CAD-BASED PRECISION

Each component is factory-engineered and manufactured with precisely located pre-drilled holes for a perfect fit.

## PERFECT-FIT SUPPORT SYSTEM

Structural design is built strong enough that an end leg is not needed to offer support.

## AUTO-RETURN SWINGARM

Rugged swingarm design with internal torsion spring provides full access, then returns to flush position when not in use.

## COMPREHENSIVE SEAT OPTIONS

Thesi Plus can be supplied with a wide variety of premium seat styles and designs, ranging from fully upholstered, polymer and mesh.

## 360° OF DESIGN

Unique design provides increased legroom and elegant appearance, with a 360° swivel.

## SILENT-ROTATION SEAT BASE

Seat support cylinders provide full rotation and automatically align with table when not occupied. Adjustable height cylinders also available.

## STYLE\*
