

CASE STUDY

CARIBBEAN AIRLINES LOUNGE

design firms: Rejane Limited and Abiola Andrews

The Caribbean Identity represents a bigger picture of language and tradition that is deeply rooted in love, acceptance, hospitality, and strength. Caribbean Airlines wanted to do their part to help share the message of the Caribbean Identity and the remodel of the lounge offered the company a chance to not only refresh and redefine their space, but to share the power in Caribbean culture.

ACCESSIBILITY & FUNCTIONALITY

The workstations give immediate access to technological tools and provide comfortable seating to promote concentration and encourage productivity.

THE CARIBBEAN IDENTITY

A large component of the aesthetics of the lounge was the use of a bold color palette to create a space that represents the Caribbean.

A QUICK HIATUS

Borgo successfully manufactured soft seating units, privacy pods, custom banquettes, dining chairs and stools, tables, and office chairs for the lounge.
