

CASE STUDY

CHARLOTTETOWN LIBRARY LEARNING CENTRE

design firm: Nine Yards Studio

With the rapid advancement of technology and the ability to easily access information, libraries have demonstrated a tremendous ability to adapt by becoming innovative, thoughtful, maximum-use spaces aimed at serving and inspiring their patrons across their lifespan and Borgo was able to supply seating solutions that would best optimize the space.

SUCCESSFULLY MANUFACTURED

The library showcases Borgo's most popular products, including the company's signature lounge and multi-purpose seating solutions Naxos and Zero9.

MODERN DAY WORK ENVIRONMENTS

As more and more workers move away from their offices, the library is there to serve its visitors with everything one could need in an average workday.

SERVING THE COMMUNITY

Among many objectives, the library is a place to gather and learn. The new space features a welcoming café, private meeting spaces, separate areas for children, a community kitchen, recording and podcast studios, and areas for private and public functions.
