

## LECTURE HALL AND TRAINING ROOM SPOTLIGHT

### DELPHIE

Commonly referred to as the Smart Classroom, there is a need to design classrooms that maximize efficiency, promote the dissemination of information, and encourage memory retention. Delphie is an innovative and functional fixed seating line that is designed to encourage interactivity amongst individuals.

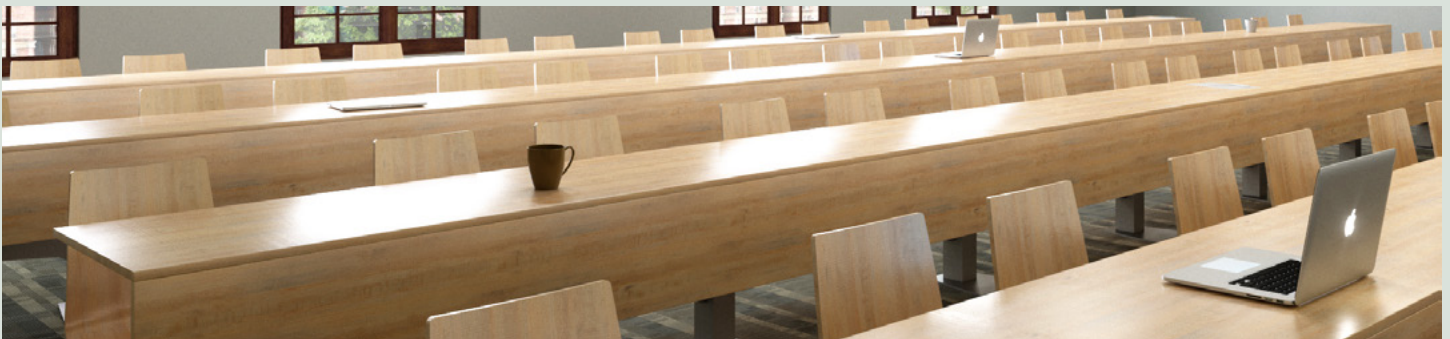

### TECHNOLOGY FORWARD

Power, USB and Data can be easily provided to every user through a built-in wire management channel.

### ENDLESS SEATING OPTIONS

Ranging from fully upholstered, poly and mesh, Delphie can be supplied with a wide variety of premium seat styles for various types of aesthetics and designs.

### PERFECT FOR CORPORATE TRAINING ROOMS

Delphie encourages the flow of ideas and open dialogue while providing large work surfaces for its users. The standard 360-degree swivel seat provides increased legroom and automatically aligns with the table when not occupied.
