

## LECTURE HALL AND TRAINING ROOM SPOTLIGHT

### OMNIA EVOLUTION

The Omnia Evolution follows Borgo's philosophy to a tee. The Omnia Evolution offers a flexible approach when it comes to designing any space from an auditorium to a training room. This design is based on key components customized to create tailor-made solutions for every customer in any environment.

#### TRUE ANTI-PANIC INNOVATION

When the user stands up, the seat automatically flips up and at the touch of the body, the Anti-Panic table moves into its stow away position.

#### PERFECT FOR CORPORATE TRAINING ROOMS

Writing tables for both left and right-handed users span the width of the seats offering more work-surface that can support a laptop, or notepad and a coffee.

#### HIGH DESIGN FOR MODERN SPACES

Its unique design can accommodate straight and curved rows while its vertical structure can support various step heights to maintain optimal posture.

#### SUPPORTIVE OF ALL TECHNOLOGY

Power connections can be built into the unit for every user by being routed from the floor directly into the post for concealed wire management.
