

MODULAR SEATING SPOTLIGHT

BENTLEE

AESTHETICS & INNOVATION

Bentlee offers the ideal seating solution for organizations stepping away from a typical waiting room setting and instead, find success in a less formal setting.

A UNIQUE SENSORIAL FEEL

Best suited for multifunctional spaces where people sit, converse, work and gather, Bentlee can easily add visual interest and creativity into their space.

REDUCING THE ECOLOGICAL FOOTPRINT

The main parts of Bentlee, including the metal spare parts and aluminum components, are made from recyclable materials.

WHICH CONFIGURATION WILL YOU DESIGN?

Made up of a singular twin-seat and a backrest option, this modular seating line offers you the ability to create unique and comprehensive configurations that will best fit into the desired space. Furthermore, Bentlee also offers the inclusion of tables that are built into the unit. This will provide its users the functionality of placing their items, such as a coffee cup or tablet, on a surface that is both sturdy and stable.
